Introducing the latest LAVITA brand catalogue. It is a collection of inspiring bathroom solutions clearly divided into complementary product groups, the synergy of which provides unlimited possibilities for creating your beautiful bathrooms.

The clear structure of the catalogue and its well-thought layout will make it easier for you to select the products that best suit your vision of the bathroom, and the provided designs will make you sure you have made the right choice. The great variety of our products, from classic and Scandinavian to modern - minimalist and industrial, allows you to create your individual, comfortable bathroom space, regardless of its size, which will bring peace and relaxation even after a very hard day.

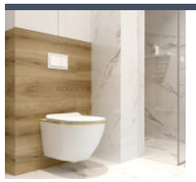

For years, all LAVITA products have one great thing common – the highest quality, original design and... HEART, that we put into each our product.

Sit comfortably, open and be inspired by LAVITA...

Solid Bases

The LAVITA brand is owned by the family company Domino Polska, which has been a permanent element of the Polish interior design market for 30 years.

Our brands - DOMINO, LAVITA and WILD-WOOD - often decide about the unique character of Polish flats and houses, and Domino Polska has grown from a small family company in Lower Silesia to one of the fastest growing companies on the interior furnishings market.

Our well-established position is confirmed by over 150 employees, our own modern logistics centre with the possibility of express shipments, and two home furnishing salons - **Domino Inspirations** with an area of 1200m2 and 700m2, which are a source of information about customer expectations for us and our designers in the context of creating and introducing new products.

Domino Polska has won numerous business, social and design awards, but the greatest satisfaction comes from our customers, who, together with us, make their dreams BEAUTIFUL BATHROOMS come true. Thank you for your trust.

Quality and harmony

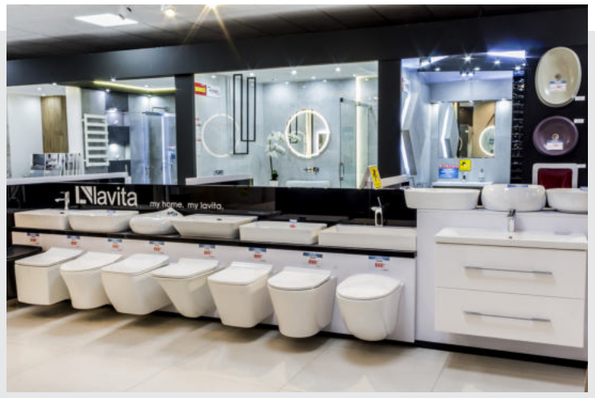

LAVITA's mission is to provide comprehensive assistance in creating beautiful, comfortable and functional bathrooms where, thanks to synergy, all the elements harmonize and perfectly complement each other. The result is a comfortable space perfectly suited to the customer's needs, which is an oasis of peace and relaxation.

Fulfilling the brand's mission, every day we listen to our customers and together with the best designers we create products of the highest quality, based on their needs and the latest trends in interior design.

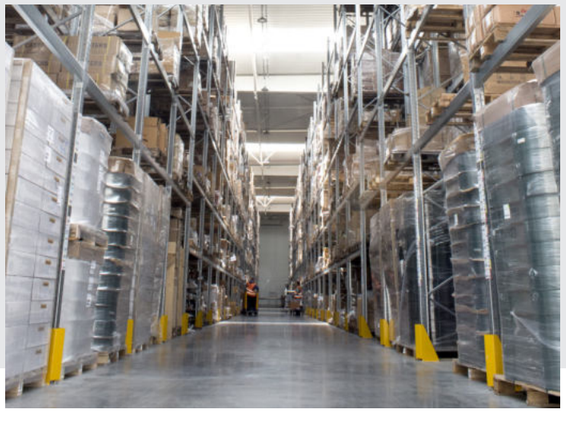

We use only high quality materials and components, which is a guarantee of durability and longevity of our solutions. Bathroom with LAVITA is a comfort, beauty and reliability for many years.

LAVITA RIM+ System

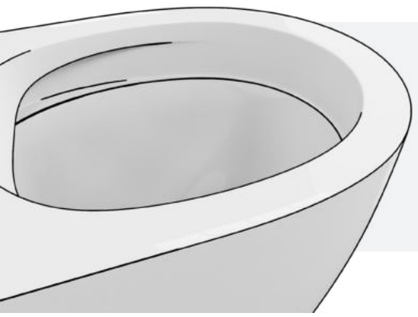

In addition to design and quality of materials, hygiene and ease of cleaning are decisive factors when choosing a toilet.

LAVITA WC pans are equipped with the rimless RIM+ system. Traditional rims promote the accumulation of bacteria, dirt and sediment. LAVITA RIM+ rimless toilets are designed to avoid hard-to-reach places where bacteria can accumulate and odours can form.

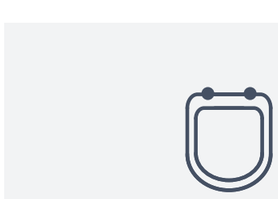

As a result, cleaning the toilet is more thorough, faster and easier.

The LAVITA RIM+ system ensures a perfect flush, completely cleaning the inside of the pan while using less water.

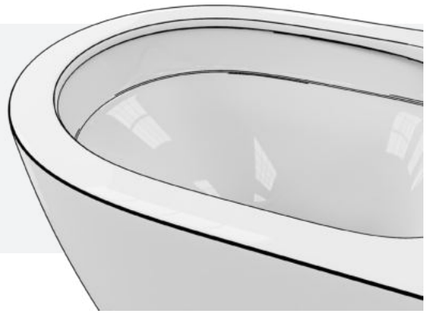

The LAVITA RIM+ system comes in three versions:

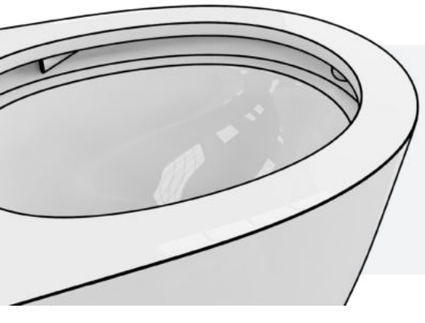

RIM+ OPEN
completely rimless surface

RIM+ SEMI-OPEN
rimless surface with a closing cover

TORNADO SYSTEM
rimless surface with swirl flushing system

WC pan with bidet function for everyone

In order to emphasise our brand's mission of creating beautiful, functional, comfortable and accessible bathrooms for everyone, on the basis of our customers' suggestions we created a product that combines the features of a toilet bowl and a bidet.

We wanted the washing toilet, despite its advanced functions, to retain its light lines, minimalist, modern shapes and marketable and affordable price.

Due to the technology used, the device is easy to install and use, and practically does not differ visually from a standard toilet bowl, which facilitates its arranging in virtually any bathroom concept.

15-year warranty for ceramics and 10-year warranty for bathtubs

Knowing that the users of LAVITA products are demanding - they are looking for reliable and functional products, we pay great attention to the quality of materials and components to guarantee reliability of use and durability for many years.

LAVITA WC pans, bidets and washbasins are made of the highest quality raw materials, and the firing process at the highest temperatures guarantees the hardness, stress and scratch resistance of the glaze. LAVITA ceramics is characterised by high hygienic properties.

LAVITA bathtubs are covered with a thick layer of the highest quality acrylic and the bottom is specially hardened and thickened. Everything is secured and strengthened by a stable levelling frame.

Research, development and innovation

With a department dedicated to product development and due to a precise quality control process, the LAVITA brand is constantly being improved.

By listening to our users' opinions on our products, on the basis of surveys and their experiences, we work to optimise our offer so that it is comprehensive and perfectly tailored, and so that the technical and functional solutions used make everyday bathroom use easier.

We innovate from the very conception of a product through its production, to the logistics, distribution and service. We innovate from the very conception of a product through to its production, logistics, distribution and service, which ensures the highest quality throughout the entire process, from product design to delivery to the customer's home.

Lavita Design Team

It is a group of bathroom enthusiasts. Designers, market experts and active advisors who work with customers every day and make their dreams of beautiful interiors come true.

They analyze the needs and expectations of customers every day, constantly designing and searching for solutions that will increase comfort of using the bathing space.

Thanks to their constant pursuit of perfection, LAVITA offer is „perfectly tailored" to the needs of FAMILY, which is the foundation of every HOME.

Concealed mounting / WC pans

Thanks to this solution, LAVITA toilet pans and bowls are smooth and streamlined on the whole surface. This promotes cleanliness and enhances aesthetic qualities.

Duroplast free falling seat / WC pans

High quality duroplast with silver ions is a guarantee of antibacterial properties and lack of scratches. Slow falling of toilet seat guarantees silence and does not disturb your relaxation time.

Easy removal of toilet seat / WC pans

At the push of a button, you can remove the seat for cleaning. This is an extremely useful feature for daily cleaning of the bathroom.

Thin rim / washbasins

The simple shape with a delicate slender edge makes LAVITA washbasins add sublime elegance to every bathroom.

Large storage area / furniture basins

With the family in mind, we made sure that our offer of washbasins include products that allow you to put away the hygiene products you need so that they are easily accessible for everyone in the house.

Silent self-closing drawers / bathroom furniture

Bathroom drawers are opened with great frequency. The soft-closing function, apart from reducing noise, reduces vibrations, thanks to which the mechanisms live longer and the furniture is not warped.

High resistance lacquered board / bathroom furniture

Bathroom furniture is very vulnerable to destructive influence of water, that is why it is so important to protect the whole surface (varnishing) to obtain durability for many years.

High resistance of acrylic / bathtubs

With the highest quality and high thickness of acrylic, LAVITA bathtubs are more resistant to scratches and keep their snow-white color and shine for many years.

Best Design / Mirrors & Accessories

Mirrors and accessories complete the interior design offer, perfectly adding the character to all LAVITA products.

12

TOILET BOWLS

Stylish versatility

Style, lightness, hygiene and simplicity are the key words that guided us in the development of LAVITA toilet pans.

With more than 30 products in this section, in a variety of styles and finishes, you can match any décor or fixture to enhance the character of even the most demanding bathroom.

LAVITA RIM+, a rimless technology, removable hinges and concealed fittings guarantee hygiene and easy maintenance, and the bidets, dedicated to most of the pans, emphasize the complementary nature of the offer..

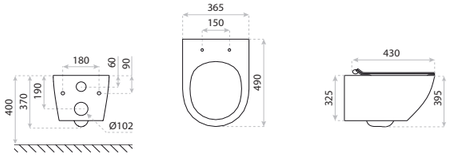

A 15-year warranty for ceramics confirms the quality of LAVITA bowls.

BIDETS

The essence of hygiene

Bidet is a synonym for taking care of hygiene, and hygiene is a key factor in the design of LAVITA products, hence the large number of bidets in our range.

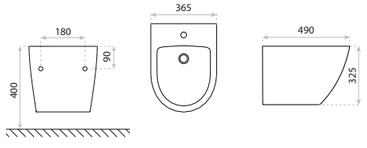

They complement the toilet pans, creating functional sets and at the same time adding sublime elegance to the bathroom.

COUNTERTOP
BASINS

Unlimited possibilities

In the LAVITA countertop washbasins section there are as many as 50 selected products, because we know how versatile, practical and casual it is.

Used both with furniture and directly with countertops, they are an extremely important element of bathroom, both visually and functionally.

The multitude of sizes and capacities will satisfy everyone, and the thin wall in selected models adds lightness and elegance to the washbasin area.

A perfect match with LAVITA bathroom furniture gives endless creative possibilities.

Functional and versatile

Helping to optimally organise space is very important in developing the LAVITA range.

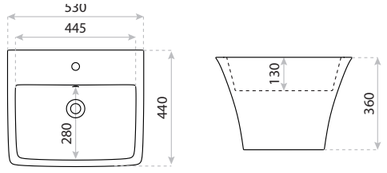

Wall-mounted washbasins - ideal for small compact toilets - and universal flush-mounted and furniture washbasins, beautifully looking both as a complement to LAVITA bathroom furniture and as a decoration of bathroom countertops made of ceramic tiles or wood, are of great suitability in this respect. The washbasin integrates with the countertop, which makes it seamlessly harmonious with it. It also gives the impression of more space at the washbasin and a fuller use of the countertop.

FREE-STANDING
BASINS

Minimalism and attractive design

Stylish design makes freestanding washbasins the focal point of bathroom design, emphasising the original character of the room, being reminiscent of a gentle fountain.

LAVITA freestanding washbasins come in different forms - they differ in shape and size, in order to give the possibility of arranging them in a minimalist decor as well as in a more traditional or classic one.

Their great advantage is the ease of installation and the fact that they do not require countertops or cabinets.

Useful and practical decoration

LAVITA furniture is a creative solution that allows you to conceptually arrange your bathroom space.

Extended, modular collections, thanks to their various configurations, provide virtually unlimited possibilities for interior design and organisation of storage space. They comprise furniture of various sizes and functions, and are interconnected by style, colour and handles or milling. Combined with countertops in several colours and a variety of LAVITA countertop washbasins, they offer further possibilities for individualising the bathroom area. The furniture is available in white, black, graphite and wood-like colours.

Fronts and bodies made of reinforced lacquered board and durable system drawers are a guarantee of quality and long life of the furniture.

LAVITA mirrors,matching the furniture range, perfectly complement the washbasin area.

Furniture countertops

LAVITA countertops are an essential complement to the furniture range, making it possible to create a virtually unlimited number of solutions. They allow you to freely combine modules and combine furniture with countertop washbasins, obtaining hundreds of configurations.

They are characterised by increased resistance to moisture. They are covered with a high-quality decorative and protective laminate, and their underside is covered with a moisture-resistant counteracting paper. The countertops are available in many colours and sizes.

MIRRORS

The perfect
c o m p l e m e n t

The mirror in the bathroom has a practical and aesthetic function. When properly selected, makes it possible to perform daily hygienic activities and changes the interior irrevocably - it enlarges, brightens and adds splendour. It crowns the whole arrangement of the room and it is a designer’s secret weapon.

LAVITA mirrors are made of high quality mirror glass covered with a reflective layer of silver. Mirror frames are made of aluminium, stainless steel, wood, MDF or glass.

For lighting we use energy-saving systems emitting white, bright, non-glare LED light.

BATHTUBS

Beautiful and majestic

We associate free-standing bathtubs with home SPAs. Until recently considered a symbol of luxury and an element of large bathing salons, today they have become an element of every stylish and fashionable bathroom.

LAVITA bathtubs, due to the multitude of available shapes and sizes, are suitable for both classic and small, modern, minimalist and loft bathrooms.

Back-to-wall freestanding bathtubs are an economical and functional compromise which saves space and at the same time preserves the unique character of the bathtub, adding a unique style to the room.

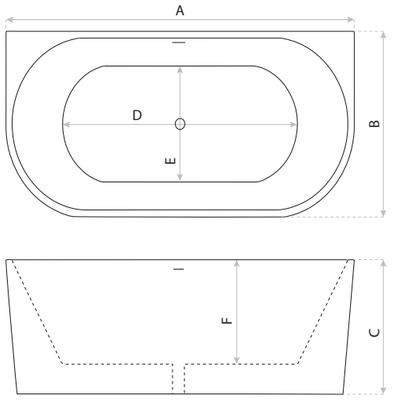

A thick layer of the highest quality acrylic, which LAVITA bathtubs are covered with, makes possible their renovation. The reinforcing levelling frame and the hardened and thickened bottom make the bathtub an elegant decoration for many years. The proof is in the 10-year LAVITA warranty.

RADIATORS

HOT TREND

Modern bathroom radiators not only emit heat and function as a dryer, but are increasingly becoming an important design element in a variety of bathroom styles. They beautify bathrooms, even when they are not very extravagant but only provide a subtle background.

LAVITA radiators are available in white, black and grey, and their minimalist and light design fits perfectly into modern and industrial interiors.

Installing a heater gives you the possibility of heating and drying all year round.

ACCESSORIES

Attention to details

All LAVITA Design accessories projects are created with attention to every detail in order to provide you with unique products that are perfected in every detail. The production process, which is precisely supervised over several stages, allows us to obtain unusual products.

The highest grade of Polish carbon steel and precise laser welding guarantee massiveness, stability and durability for years. Anti-corrosion and decorative protection is a guarantee of smooth joints and product surface.

LINEAR
DRAINS

The bathroom without a threshold

A linear drain is a way to create a functional and impressive bathing area without the need for a shower tray. The visible grid of the drain, thanks to different finishes and colours, can have a decorative function, and the option of installing the tiles gives the possibility to maintain a uniform floor surface throughout the bathroom.

The highest quality stainless steel used for LAVITA drains is a guarantee of durability. In addition, these products are easy to clean and have high water draining capabilities.

The low build-up of some models and many sizes mean that they can be installed in the most technically demanding bathrooms.

Threshold-free entry into the shower, thanks to the use of linear drain significantly improves the aesthetics of the entire interior and optically enlarges the bathroom.

Concealed bathroom essentials

Hiding installations away has a positive effect on the aesthetics of the interior and the comfort of use. Today, it is difficult to imagine renovation or new bathroom without concealed frames. Hanging the ceramics above the floor has an optical aspect, as it visually enlarges the bathroom space.

The control of LAVITA concealed frames at every stage of production, the best quality of materials and reliable, easy to replace flushing system guarantee the reliability of our solutions.

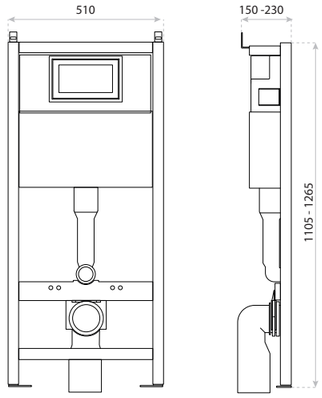

The LAVITA range of frames is complete, allowing the installation of toilet bowls as well as bidets, basins, urinals and handrails. The product range is complemented by a wide range of flush plates in many colours, offering a variety of design options.

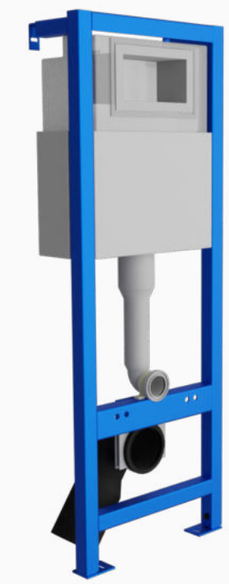

A FRAME FOR CONCEALED INSTALLATION OF A TOILET

LAV 100

DIMENSIONS (MM) **1105-1265 x 510 x 150-230**
EAN **5908211494845**

CLEANING PRODUCTS

Complementing the cleanliness and hygiene

As a complement to the catalogue and a confirmation of the importance of HYGIENE in the LAVITA offer, we have a full range of professional cleaning products.

Knowing the expectations of bathroom users, it was important to us to create a line of products that would effectively and ruthlessly deal with dirt and grime, with immediate action, without interfering with the structure of the cleaned surface. Hence the use of a formula based on non-aggressive ICP active substances.

The top quality cleaners for ceramic tiles, grout, shower cubicles, care of ceramic equipment and silicone removal will help to keep your bathroom equipment impeccably clean and extend its lifetime.

CLEANING PRODUCTS

SILICONE REMOVER

CAPACITY **100 ml**
EAN **5900378319474**

PROFESSIONAL SILICONE REMOVER FOR REMOVING SILICONE FROM VIRTUALLY ALL SURFACES:
- CERAMIC TILES,
- SANITARY FITTINGS,
- WOOD,
- STONE,
- CLOTHES,
- ETC.,

WITH EXTREMELY HIGH EFFECTIVENESS. CHEMICAL FORMULA BASED ON NON-AGGRESSIVE ICP® (INTELLIGENT CHEMICAL PROPERTIES) ACTIVE AGENTS. DOES NOT CAUSE SIDE EFFECTS, I.E. DISCOLOURATION AND DAMAGE TO THE STRUCTURE OF THE CLEANED SURFACE.

CLEANING PRODUCTS

CERAMIC TILE CLEANER

CAPACITY **100 ml**
EAN **5900378319481**

EXTREMELY EFFECTIVE CLEANER FOR:
- MARBLE,
- GRANITE,
- SANDSTONE,
- CONCRETE,
- BRICK.

THE AGENT PENETRATES THE STRUCTURE OF THE CLEANED SURFACE, AND THEN SEPARATES DIRT. THE DIRT THAT IS IN THE MATERIAL IS SUCKED OUT. THANKS TO ITS FORMULA, STONE CLEANS PARTICULARLY DEEP DIRT WITHOUT AFFECTING THE STRUCTURE, PROPERTIES AND COLOURS OF THE CLEANED SURFACE. EVEN PARTICULARLY DELICATE AND FREQUENTLY CLEANED SURFACES RETAIN THEIR NATURAL PROPERTIES AND COLOURS.

CLEANING PRODUCTS

CERAMIC TILE CLEANER

CAPACITY **500 ml**
EAN **5900378321637**

EXTREMELY EFFECTIVE CLEANER FOR:
- MARBLE,
- GRANITE,
- SANDSTONE,
- CONCRETE,
- BRICK.

THE AGENT PENETRATES THE STRUCTURE OF THE CLEANED SURFACE, AND THEN SEPARATES DIRT. THE DIRT THAT IS IN THE MATERIAL IS SUCKED OUT. THANKS TO ITS FORMULA, STONE CLEANS PARTICULARLY DEEP DIRT WITHOUT AFFECTING THE STRUCTURE, PROPERTIES AND COLOURS OF THE CLEANED SURFACE. EVEN PARTICULARLY DELICATE AND FREQUENTLY CLEANED SURFACES RETAIN THEIR NATURAL PROPERTIES AND COLOURS.

CLEANING PRODUCTS

CERAMIC CARE AGENT

CAPACITY **500 ml**
EAN **5900378319467**

MODERN CLEANING AGENT BASED ON NANOTECHNOLOGY.
REMOVES DIRT FROM:
- STONE DEPOSITS,
- CERAMIC SURFACES,
- SANITARY FITTINGS,
- NATURAL STONE.

THE CHEMICAL FORMULA BASED ON NON-AGGRESSIVE ACTIVE SUBSTANCES ICP® (INTELLIGENT CHEMICAL PROPERTIES) REMOVES EVEN OLD DIRT WITHOUT HARMING THE CLEANED SURFACE.

CLEANING PRODUCTS

GROUT CLEANER

CAPACITY **500 ml**
EAN **5900378319450**

MODERN CLEANING AGENT BASED ON NANOTECHNOLOGY.
REMOVES DIRT FROM:
- STONE DEPOSITS,
- CERAMIC SURFACES,
- SANITARY FITTINGS,
- NATURAL STONE.

THE CHEMICAL FORMULA BASED ON NON-AGGRESSIVE ACTIVE SUBSTANCES ICP® (INTELLIGENT CHEMICAL PROPERTIES) REMOVES EVEN OLD DIRT WITHOUT HARMING THE CLEANED SURFACE.

CLEANING PRODUCTS

SHOWER CABIN CLEANER

CAPACITY **500 ml**
EAN **5900378319443**

MODERN CLEANING AGENT BASED ON NANOTECHNOLOGY.
REMOVES DIRT FROM:
- SCALE DEPOSITS,
- SOAP RESIDUES,
- SHOWER CUBICLES.

THE CHEMICAL FORMULA BASED ON NON-AGGRESSIVE ACTIVE SUBSTANCES ICP® (INTELLIGENT CHEMICAL PROPERTIES) REMOVES EVEN OLD DIRT WITHOUT HARMING THE CLEANED SURFACE.
